Frequently Asked Questions

Do my photos have to be the same size as the template?

No. We scan and digitize each photo, therefore we are able to enlarge and/or reduce photos. Vertical photos work best, but we can also zoom in on portions of photos and crop. We can accept photos up to size 8x10.

How many words can my message be?

This depends on the ad design you choose. If you choose a layout that does not have much room for text, you should plan your writing accordingly. We will shrink or enlarge font size in order to fit the space provided, but please keep the layout in mind as you create your special message.

How can I indicate which photo I want to go where? How will you know what to include from each photo?

Please apply a label to the back of each photo and number it according to the layout's numbering. Be sure to also include your student's name on the label as well. We always crop to include as much of the subject as possible, usually zooming in as closely as we can to the subject's head & shoulders. If you would like us to include special elements of the photo that would not ordinarily be included (i.e. parts of the background, full-length body shots, etc.), please note that on a label on the back of the photo or on the sheet that includes your message. Alternatively, if there are people or things you do want cropped out, please indicate that as well. WE NEVER CROP OUT PEOPLE unless specified.

Do I have to type my text?

We try our best to ensure accuracy in the reproduction of messages, therefore submitting typed text is the best way to help us. We cannot guarantee the accuracy of any text that is handwritten, due to variations in handwriting size and style and human error. If you would like to submit your text on disk, you may certainly do so. Also, please do not type in caps unless you wish your message to appear in capital letters.

Must I choose from one of the pre-designed ad formats?

Yes. Due to the quantity of ads received, we cannot customize each one. If you prefer a more personalized memory for your student, you may create a CUSTOM ad and submit camera-ready art.

What does "camera-ready" mean?

Camera-ready means that the ad is done exactly as it is to be seen in the book, with photos pasted down and text in place (similar to a scrapbook page). There is no limit to what you can do with a custom ad, so long as the ad itself fits within the specifications given on the order form. Camera-ready ads will be scanned in exactly as they are submitted and therefore must be submitted to size, including margins and borders. **Please ensure your ad fits the dimensions given on the order form. If you would like, you may contact us for a paste-up board, which is trimmed to the correct size, and instructions. Please ensure that all edges of elements (text, photos, embellishments, etc.) are glued down on all sides with rubber cement.**

Can I submit my ad or photos on disk (digitally)?

If you so desire, you may submit an electronic file(s) with only the following specifications: photos or complete ads may be submitted as actual size tiff or jpg files with a minimum resolution of 300 dpi. (Please note that Photoshop defaults at only 72 DPI so you must set the resolution prior to creating the ad/scanning.) Color ads must be saved in CMYK color and black and white ads must be saved in grayscale. We are unable to accept any digital files done in Microsoft Word, Publisher, Powerpoint, or any other desktop publishing-type program (unless it is submitted as a custom ad and printed out on photo paper). CDs are acceptable but we cannot accept files via email.

If the yearbook doesn't come out until the end of the school year, why must my ad be submitted so early? And why do the prices increase each deadline?

The yearbook is generally created beginning in October and finished in a matter of 5 months. As time elapses and pages are submitted to the publisher, the actual price of each page in the book increases month by month. In order to keep the cost of the yearbook down and ad prices low, schools try to sell and submit ads as early as possible.

Can I cut my photos?

We STRONGLY discourage cutting photos. If your photos are in unorthodox shapes (stars, hearts, etc.), we will be unable to fit them into the standardized template properly. In addition, for color ads, we will also be unable to use a color background with odd-shaped photos if one is selected by the school.

Can I send copies of my photos instead of originals?

Please do. As long as your copies are good-quality, copies generally work just as well as originals. But if a photo or copy is blurry or pixilated, it will remain so in the yearbook.

Will I receive a confirmation upon the receipt of my order?

Please consider your cancelled check or credit card statement as confirmation of your order. Checks are often not deposited for up to a month, so please be patient. If after a month your check has not cleared the bank, please contact us for verification that we have received your order.

Will I receive my photos back?

Yes, but only if you have enclosed a self-addressed, stamped envelope. We are able to send back all materials once the yearbooks are distributed so you can expect to have them returned to you by the end of September following the receipt of the yearbook. Please consider the size of the envelope you are including to ensure that it can accommodate your photos.

If my child's school uses color backgrounds, can I select which color I want?

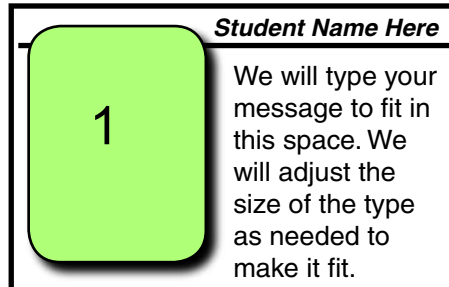

Some schools choose a palette of colors for use as backgrounds of the color ad pages. This palette changes from year to year, so unfortunately, we are unable to allow parents to choose the background color of their child's ad. The Yearbook Company will choose a color that best complements the photos in the ad and provides a variety of color in the ad section.

IMPORTANT NOTICE: We reserve the right to edit inappropriate or remove copyrighted material (including a copyrighted photo indicates that you have received permission from the photographer to reprint the photo in your student's ad). We reserve the right to move photos around as needed to fit the selected layout or to choose a different layout if the correct number of photos is not included. If too many photos are included, we will choose the ones to appear in the ad. If an inappropriate photo is submitted, we will remove it and adjust the layout accordingly. For photos/ads submitted on disk, if the resolution is less than 300dpi, we will increase, however, loss of quality is likely to occur. For custom ads submitted not to specified dimensions, ad will appear "stretched" once placed.

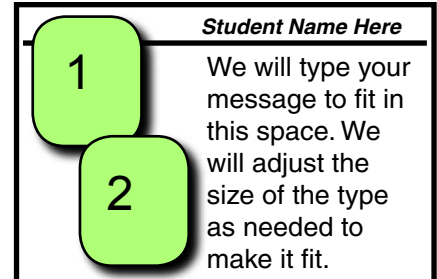

We are unable to modify these templates in any way.

If you would prefer a more personalized ad, please submit yours under our "custom" option.
